Dear Elenore,

This is a thank-you note.

Before I put all my attention on what is yet to be addressed regarding this old body, I must acknowledge what you have accomplished.

Your gut reconditioning program turned it around for me: no more pain, no more hospital trips, no more

24-hour anti-biotic drips, or
huge doctor bills. I'm 64 and
I can eat anything and feel
great!

In your hands, I'm just not
worried about my health
anymore.

Thank you for being
so competent and
caring.

John Reader.
