3. I understand that as a Nutrition Consultant the recommendations, discussion, sale of food, nutrition, nutritional supplements, vitamins or minerals, food grade herbs, or other nutrients as foods for special dietary use only pertains to the whole body concept of nutrition, and does not relate in the context of any specific ailment or condition.

4. The appointments do not involve the diagnosing, prognosticating, treating or prescribing of medicines or the treatment of disease, or any act which will constitute the practice of medicine in this state, for which a license is required.

According to the Federal Food, Drug and Cosmetic Act, as amended,
Section 201 (g) (1), the term "DRUG' is defined to mean:

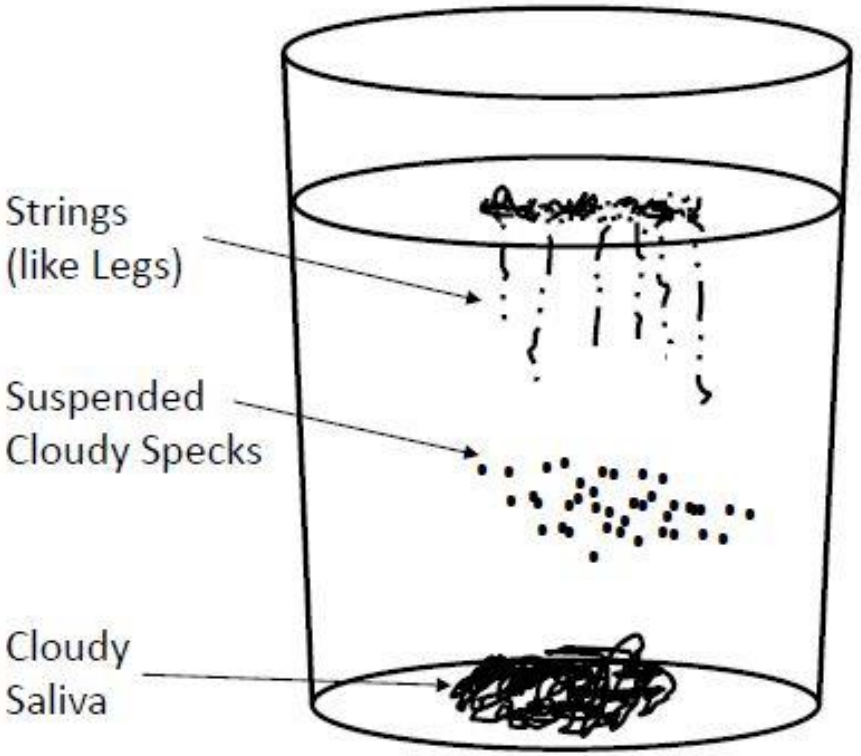
Do-It-Yourself Candida Test



- Place clean glass with water on counter. Do not touch the glass after this point.
- Spit into the glass your first sputum in the morning before putting anything in your mouth.
- Check the water every 15 minutes for up to one hour.
- If you see strings (like legs) traveling down into the water from the saliva floating on top, or "cloudy" saliva that sinks to the bottom of the glass, or cloudy specks suspended in the water then the saliva is carrying a fungal overgrowth.
- If no strings and the saliva is floating after 1 hour it appears you are Candida free.
- If positive for Candida call the office and order:
  - ✓ GI Synergy – take 1 packet AM/PM
  - ✓ Repairvite – use 1 scoop per day

  You will also need to reduce your sugar to less than 10-grams per day.
